

SLIDE MISTER

1

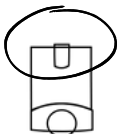

Gently open the back cover by sliding it upwards.

4

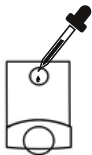

Slide the cover downwards, the blue indicator will light up and mist will spray out of the spray nozzle.

2

Open tank rubber stopper.

3

Fill the tank with Copperine using a dropper (included in the box) or thin nozzle.

5

Aim towards the bottom of the nose while inhaling for 3-5 seconds.

Mist directly in the mouth for 3 seconds towards the back of the throat. You do not need to inhale while spraying the mouth.
